

# Hydration Station

## Frequently Asked Questions

### **Is it easy to set up?**

To see how easy it is to set up watch the [set up video](#). An instruction card is provided in a pocket in the carry bag.

### **Is it good for large events?**

One unit is not normally enough for large events. There is the capacity to link multiple units together - refer to the Hydration Station Hire List. [Bulk Water](#) is a commercial organisation that caters for large events with multi stations and their own portable water supply.

### **What taps are able to be used?**

All regular outside garden taps are suitable. A two piece tap attachment is included in the bag which covers two different tap sizes. The tap attachment is suitable for the station hoses but not standard garden hoses.

### **Is there a water fountain included?**

No, the station is only for filling water bottles. There are larger stations within the region which have a fountain and bottle filling capability.

### **Is it easy to transport?**

Yes. The station fits in most small cars with the back seat down. It comes in a large canvas bag with wheels. There is also a strap to help with carrying it up steps etc.

### **How much does it cost to hire?**

It is free to be used in the Wellington Region for schools and community organisations.

### **What paperwork is required when hiring?**

A Loan Agreement will be emailed and needs to be completed to confirm the booking.

### **Where is it held?**

The station is kept in the Nuku Ora office at Level 1, 223 Thorndon Quay, Wellington. Pick-up and drop off details are normally from the office.
